

Overview

As a business executive with more than 23 years of experience, Dr. Kunzmann joined PTV NuStats in September 2011. As president, he directs corporate operations, guides business strategy, and provides leadership in strategic planning and growth. He actively participates and contributes to PTV NuStats' financial planning and reporting as well as business development activities. Dr. Kunzmann also provides his considerable experience to PTV NuStats' technology, management, and processes improvements resulting in continued client satisfaction and outstanding data products. Dr. Kunzmann also leads the company's technical infrastructure building process. His expertise and experience in developing technology infrastructure pairs well with PTV NuStats strategic direction and is complemented with his engineering and automotive industry expertise.

Mr. Kunzmann has a rich background in executive business leadership and has provided his leadership skills to companies in Europe, Asia, and the U.S. His leadership has led to increased profits and streamlined processes, technology and product innovations, and Infrastructure improvements.
